

FREIGHT HUB

COMPANY PROFILE

Freight Hub is a modern logistics and supply chain solutions company built on a strong family legacy. Operating under Common Group, a family-owned business with decades of experience in trade, agriculture, and industrial operations, Freight Hub was established to transform this heritage into a focused, agile, and technology-enabled logistics platform.

While the brand is new, the expertise behind it spans more than 35 years of hands-on logistics experience, shaping a deep understanding of global trade, transportation, customs, and the end-to-end movement of goods across multiple industries.

Freight Hub bridges heritage and innovation — delivering reliable logistics solutions designed for today's fast-moving, data-driven world.

OVERVIEW

VISION

To become the most trusted logistics hub in the region, setting the standard for speed, transparency, and operational excellence.

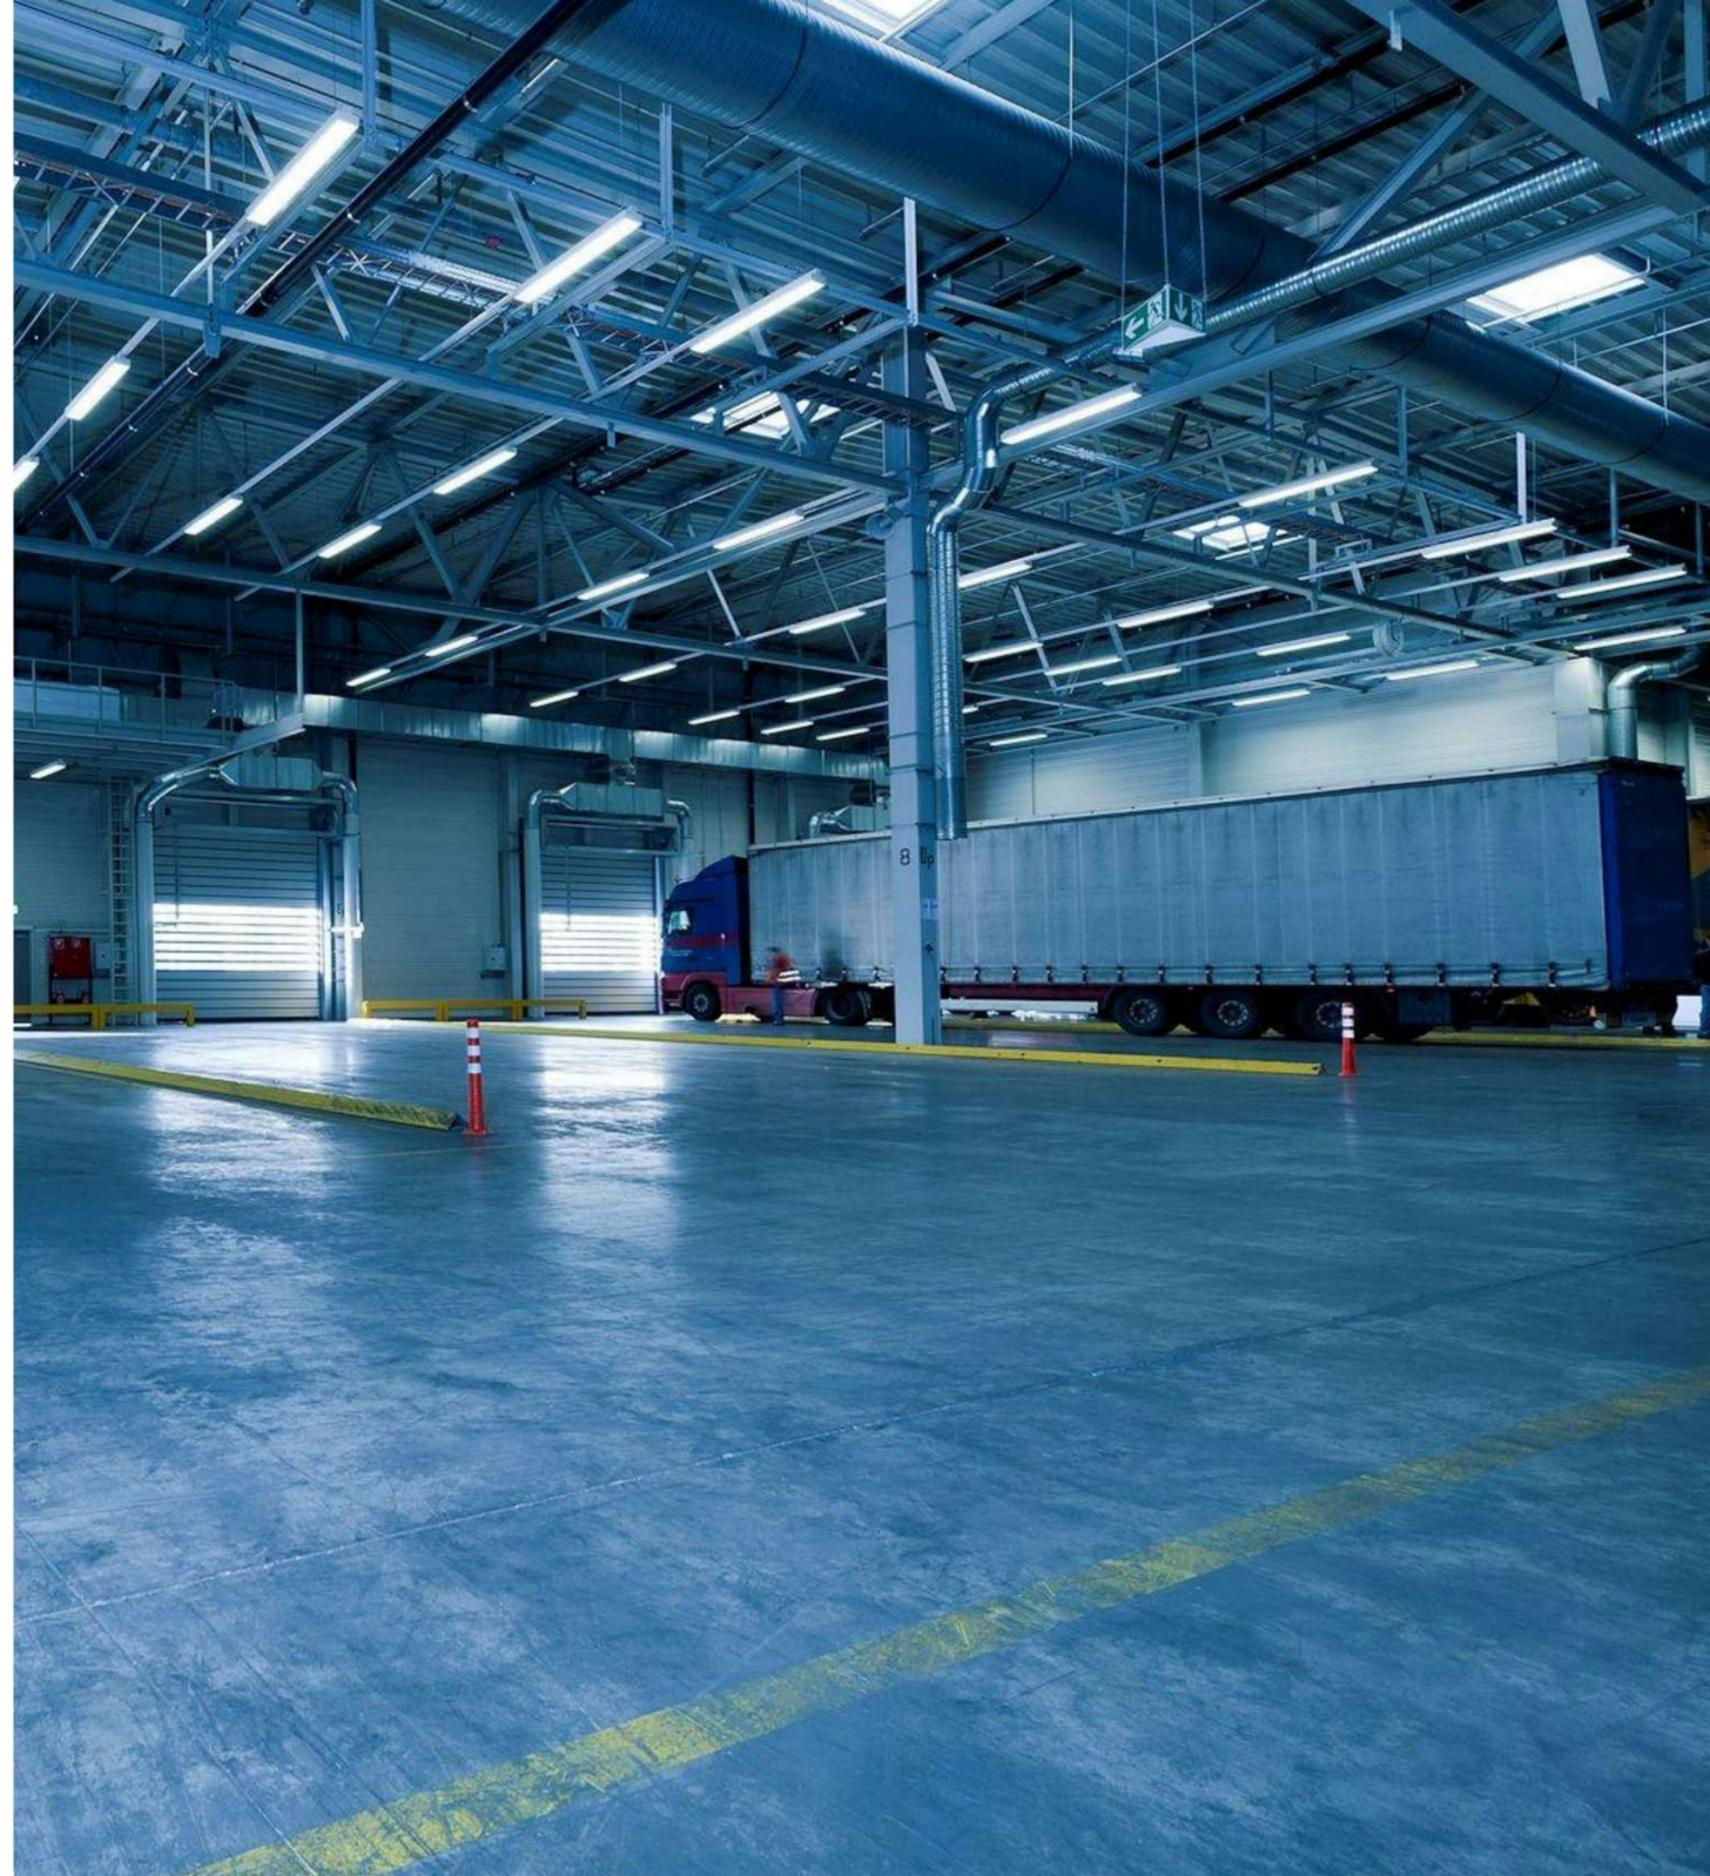

Freight Hub aims to lead the logistics sector by transforming freight operations into reliable, technology-enabled systems that support the long-term growth of manufacturing, trading, and e-commerce businesses.

MISSION

To design, implement, and operate end-to-end logistics solutions that ensure fast customs clearance, cost efficiency, and full shipment visibility. Through deep customs expertise, nationwide transportation, digital reporting platforms, and dedicated account management, Freight Hub delivers logistics services with precision, responsibility, and consistency.

OUR LEGACY

Freight Hub's foundation goes back to the late 1980s, where years of operational work in logistics, trade, and industrial supply chains built a strong, practical understanding of how goods move — and how they should move better.

This legacy has given us:

- In-depth knowledge of international shipping and customs procedures
- Long-standing relationships across agricultural and industrial sectors
- Operational experience in complex, high-volume, and regulated logistics environments

Freight Hub was created to modernize this legacy into a specialized logistics company that is customer-centric, technology-driven, and operationally efficient.

SERVICES

Freight Hub delivers comprehensive, end-to-end logistics and freight management solutions, designed to support importers, exporters, manufacturers, and large-scale operations with efficiency, clarity, and control.

03

FREIGHT MANAGEMENT SOLUTIONS (IMPORT & EXPORT)

We ensure safe, efficient, and timely movement of goods through:

- Nationwide trucking networks
- Route optimization and scheduling
- Secure handling for agricultural, industrial, and sensitive cargo

04

TRANSPORTATION & TRUCKING

Freight Hub provides reliable trucking and inland transportation services across all Egyptian provinces.

05

DOCUMENTATION HANDLING

We manage all logistics-related documentation with accuracy and compliance, including:

- Shipping and customs documents
- Import and export paperwork
- Regulatory and clearance documentation

This ensures smooth coordination between all stakeholders and authorities.

We actively work to prevent demurrage and detention costs through proactive planning and close coordination with ports, shipping lines, and customs authorities.

When applicable, we also manage the demurrage refund process, ensuring clients recover eligible costs efficiently.

06

DEMURRAGE PREVENTION & REFUND MANAGEMENT

07

STANDARD OPERATING PROCEDURES (SOPS) DESIGN

Freight Hub supports clients by designing and implementing Standard Operating Procedures (SOPs) for logistics and supply chain operations.

These SOPs help improve:

- Operational efficiency
- Process consistency
- Risk management and compliance
- Scalability of logistics operations

Clients benefit from:

- Transparent reporting
- Better decision-making
- Improved operational control

08

REPORTING & TRACKING SYSTEMS

We provide structured reporting systems that offer clear visibility into logistics performance, shipment status, and operational metrics.

Each client is assigned a dedicated Key Account Manager, serving as a single point of contact for all logistics operations.

This ensures:

- Faster communication
- Personalized service
- Proactive issue resolution
- Long-term partnership and trust

09

DEDICATED KEY ACCOUNT MANAGEMENT

WHY FREIGHT HUB
